

Dear CACMID members,

We are looking for interesting, difficult and head-scratching clinical and laboratory cases for the Clinical Vignettes session being held on Friday, March 16th as part of the AMMI Canada - CACMID 2007 Annual Conference.

Please include an outline of the case (including investigations, diagnosis and treatment) along with a short discussion on the instructive value of the case. An abstract of the case should also be included (but please don't give away the answer!). Abstracts will be published in the Canadian Journal of Infectious Diseases & Medical Microbiology for members to review before the Clinical Vignette session.

The session will be very interactive with the audience using touch-pads for input as they try to solve these tricky cases.

If you have questions, please contact either Dr. Diane Roscoe at (604) 875-4547, diane.roscoe@vch.ca or Dr. Fiona Smaill at (905) 521-2100 ext 76332 smaill@mcmaster.ca.

Cases must be submitted by email to Dr. Diane Roscoe at diane.roscoe@vch.ca.

The deadline for submission of clinical cases is December 4th, 2006.
